SUMMARY

I'm a lifelong learner with a passion for people. I thrive in environments where everyone is collaborative, enthusiastic, and working towards a common goal. I strive to design high-quality code that is clean, scalable, and reusable.

TECHNICAL TOOLKIT

SKILLS: React, TypeScript, JavaScript (ES6), Redux, Node.js, HTML, CSS / SCSS / SASS

OTHER: Test Driven Development, Continuous Integration (CI), Git, RESTful API, npm, Jest, Cypress, VS Code, Unit Testing

PROJECTS

UFOMG

Tech Stack: React, JavaScript, Redux, Python, Flask, Google Maps API, Cloudinary, Cypress, Heroku, Git

UFO reporting and research website

- Addressed need for a site that had data visualization for deeper research and a way to add their own reports
- Collaborated with a full back-end team to build the app from scratch with agile software development
- Built custom Google Map icons, buttons, and legend that allow a user to filter between sighting density and sighting type

Game Sleuth

Tech Stack: React, TypeScript, React Testing Library, Jest, Heroku, Git, Material UI

Board game research website

- Allows beginners and board game enthusiasts to search and find all types of board games based on their criteria
- Learn and apply TypeScript and React Hooks within a eight day timeframe
- Collaborated in a team of three to design and plan app, using GitHub Projects to ensure a cohesive group workflow

EXPERIENCE

FirstBank, *Assistant Supervisor*, Lakewood, CO

Feb. 2019 - Mar. 2020

- Guided team to achieve 100% of department service level objects for the first time ever.
- Identified strengths and weaknesses in each team member and created custom training plans to help take them to the next step in their careers
- Successfully had four team members promoted to better positions within a year

Motorola Solutions, *Senior Account Manager*, Denver, CO

Jan. 2017 - July 2017

- Oversaw five states in the PNW region. Traveled to meet clients and perspective customers to demonstrate product
- Managed SaaS sales, strategic account planning, and customer relationship management through Salesforce
- Worked closely with team members across the country to coordinate best solutions for the customer

Intrado, *Senior Implementation Specialist*, Longmont, CO

May 2014 - Jan. 2017

- Agile project management of cellular site emergency routing. Projects ranged in size, scope, and timeline
- Created an Excel macro, resulting in an 83% reduction in cellular site deletion processing
- Received a customer service of the year award for my continued dedication to always putting the customer first

EDUCATION

Turing School of Software & Design

Nationally accredited software engineering bootcamp

Aug. 2020 - Mar. 2021

University of Colorado - Denver

MBA International Business

University of Northern Colorado

BS Marketing
