SUMMARY

Former administrative & sales professional turned software developer. Nothing makes me more passionate than mastering languages from French to Ruby on Rails then using those languages for problem-solving, to build quality products, and to build lasting relationships!

SKILLS

LANGUAGES & FRAMEWORKS: Ruby on Rails
TOOLS: Postgres, GraphQL, SQL, ActiveRecord, Sinatra, Node.js, JSON, Heroku, REST APIs, MiniTest, RSpec
METHODOLOGIES: Test Driven Development, Oauth, REST, Agile, OOP, Git, CRUD, Continuous Integration, Documentation Writing

CODE

Roots (Nov 2020): Engineer the backend of an Elixir/Phoenix cooking recipe web application. *Elixir/Phoenix/GraphQL/APIs/Postgres*
Grow Ops (Oct 2020): Consumed multiple API endpoints to create location-specific gardening application. *Ruby/Rails/Sinatra/Oauth/HTML/CSS/REST APIs/Postgres*
Monster Shop (May 2020): Built a RESTful Rails online shopping platform where users can register to buy and sell goods. *Ruby/Rails/Oauth/HTML/CSS/RSPEC/Capybara*

CAREER
