Turing School of Software and Design

The first fully accredited coding bootcamp in the US. Turing students spend over 1500 hours across seven months to become job-ready front-end developers

Metropolitan State University of Denver

Bachelors in Journalism |
Minor in Philosophy

PROJECTS

Hero Finder

Deployed | Repo

An app meant for fictional villains to find their perfect match in their next arch enemy super hero. Or could be used as a catalogue to search for and find super heroes.

Tech: React, Router, REST API, Cypress, CSS

My Name is Dad

Deployed | Repo

An app for new dads that allows them to produce random dad jokes or search for a specific categorical dad joke.

Tech: React, Redux, Router, REST API, Cypress, CSS

Rancid Tomatillos

Deployed | Repo

An app similar to Rotten Tomatoes that displays all the movies on the API. A user can click on a movie to see all its given info as well as search dynamically through all movies.

Tech: React, Router, REST API, Cypress, CSS

EXPERIENCE

Technical Recruiter - Creative Alignments

2018-2020

Full desk recruiter where I would source, screen and submit candidates for a variety of small to medium size businesses in the Boulder and Denver area.

Recruitment Coordinator - CA Technologies

2014-2018

Worked as a recruitment coordinator helping approve and distribute offer letters and help employees get setup and ready for day one. Also, worked extensively in our ATS (SuccessFactors) and was heavily involved in all testing and implementation of new features.
