## PROJECTS

### [Star Wars DnD Companion App](#) - Create an API Utilizing GraphQL

#### Learning Opportunities:

- Built an API from scratch, logged user characters and their attributes
- Exposed API endpoints via GraphQL

#### Tech Stack:

- Ruby on Rails
- RSpec
- GraphQL
- [GitHub Repository](#)

### [Rails Engine](#) - Create an API utilizing Rails.

#### Learning Opportunities:

- Built an API from scratch
- Exposed API endpoints for frontend use

#### Tech Stack:

- Ruby on Rails
- RSpec
- Heroku

## EXPERIENCE

### Turing School of Software and Design - Student

Denver, Colorado February 20, 2021 - Current

- Worked in groups from 2-8 members with a project manager
- Managed 30 students as a member of Student Leadership Committee

### Packaging Corporation of America - Supervisor

Denver, Colorado April 4, 2011 - February 20, 2021

- Trained 100 employees bi-monthly on standard operating procedures, as well as new hires monthly and ensured they reached the learning goals set out by the company.
- Analyzed working procedures for fabricating department weekly, identified deficiencies, determined the root cause and implemented solutions in order to maximize efficiency and production.
- Made judgement calls when salaried supervisors were unavailable.
- Oversaw safety committee of ten employees. Identified pitfalls and proposed solutions. Prepared meeting agenda weekly and recorded minutes.
- Assisted in corporate audits twice a year, provided information based on our Standard Operating Procedures and demonstrated processes to auditors.
