

# RACHEL HENDRICKS

## SOFTWARE DEVELOPER

◆ rachelhen92@gmail.com ◆ 770-231-3536  
◆ [GitHub](#) ◆ [LinkedIn](#)

### PROFESSIONAL SUMMARY

Energetic software engineer, eager to use JavaScript skills to write clean code. A quick learner when learning new technologies who is detail oriented. A valuable team member who works well in a collaborative environment.

### PROJECTS

#### Gifty:

- Developed with React, Redux, Travis CI, Cypress, CSS, and Router
- An application used to keep track of friends and families birthdays and gift ideas for them.
- Group project took 2 weeks to build utilizing agile methodologies and a git rebase workflow.
- [Deployed Link](#)
- [Repository Link](#)

#### Chef-Indecisive:

- Built with React, Cypress, CSS, and Router
- An application created for a niche audience of indecisive vegetarians needing ideas on what to cook for dinner. Users are able to favorite and delete recipes.
- Solo project completed in 7 days.
