EXPERIENCE

SOFTWARE ENGINEER

Fairwinds, Denver, CO | January 2021- Current

Building integration between Fairwinds Insights Kubernetes monitoring software and Atlassian's Jira Cloud using GoLang, PostgreSQL, and Docker.

SCRUM MASTER

Aerosol Cloud, Denver, CO | 2018 - 2020

Organize and facilitate stand-up meetings, retrospectives, release planning, demos and other Scrum related events. Coaching teams on the basics of Scrum and applying Kanban visualizations and metrics for better prioritization, collaboration, and continuous improvement.

DATA BACKLOG TEAM LEAD

Chesapeake Energy, Oklahoma City, OK | 2014-2018

Lead interdisciplinary committee of 18 for resolving data issues in preparation for SAP software implementation. Coordinated 50+ contractors for project completions with a budget of \$2.6MM annually. Wrote automated tests in Application Lifecycle Management.

DIVISION ORDER ANALYST

AEP LP, & Chesapeake Energy Oklahoma City, OK | 2010-2014

Created user documentation including how-to guides and instruction manuals. Member of software implementation team for Quorum, SAP Business Objects and Artesia.

OPEN SOURCE PROJECTS

CAREER DAY

GitHub Repo: <https://github.com/Career-Day>

Visit live link: <https://career-day-fe.herokuapp.com/>

Tech: Python 3.9, Flask, Pytest, Postman Testing Automation, React, Hooks

Job inspiration mobile app for tweens and adolescents. Allows user to search prospective careers by keyword or salary range, see videos of the profession and favorite roles of interest. Heroku and deployed with TravisCI.

PODSMACK

GitHub Repo: <https://github.com/janegreene/podsmack>

Visit live link: <https://podsmack.herokuapp.com/>

Tech: Ruby on Rails, Bootstrap, PostgreSQL, TravisCI, Sinatra, RSpec

Ruby on Rails application used to organize Podcast content by location and topics of interest. Learning goals from this project were to design and build an application from scratch, consume a JSON API, authenticate users with OAuth, utilize a Sinatra microservice, and configure continuous integration.
