## Front End Software Developer

### ABOUT ME

I've always found immense satisfaction in creating, fixing, and repurposing things, especially when it can add to somebody else's quality of life. Being able to take a step back and witness something that wasn't there before; a room full of people gathered together to share an experience, an anticipated meal, a purposeful software application, or palpable happiness, has always inspired me to keep learning, imagining, and pushing for more.

### SKILLS

HTML, CSS/SCSS, React, React-Router, Data Management, Rest API, GSAP animations, Apollo GraphQL, Cypress Testing, Mocha/Chai Testing, Travis CI, GitHub, Mobile Responsiveness, Accessibility, Software Design, User Interaction, Agile Workflow

### PROJECTS

**"Poly" Synth** (group/full-stack) - ["Poly" Synth Deploy](#)

Full modular synthesizer that exists in an interactive 3D environment. Designed to allow users with no prior music experience the ability to explore sound design and music creation in a fun & accessible way.

Built using: *React, Tone.js, Three.js, GSAP, Cypress*

**Rancid Tomatillos** (paired) - [Rancid Tomatillos Deploy](#)

API fed movie browsing application to allow users to browse, search, and view detailed views from selection,

Built using: *React, React-Router, Cypress, Surge*

### EDUCATION

**Turing School of Software & Design**, Denver, Colorado August 2021

Software Development - Front End Engineering

- 1500-hour accredited intensive software engineering program that provides job-ready education in a remote environment
