Skills

React	Git GitHub	RESTful APIs
React Router	Slack	Unit Testing
JavaScript ES5 ES6	OOP	Deployment
HTML CSS3	CircleCI	SQL
SCSS SASS	Google Workspace	CI CD
TDD	Express JS	
Cypress	Heroku	
Mocha Chai	UX UI	
Apollo GraphQL	Responsive Design	
PostgreSQL	Adobe Creative Suite	

Projects

SEEN A social media platform where everyone has the chance to go viral
Tech Stack: React/Router/Cypress, Apollo/GraphQL, CircleCI, Vercel, Context API
Learning Goals

- Apply an agile workflow utilizing continuous integration and deployment
- Build a full stack application with a Front-end and Back-end team
- Create a scalable product with new technologies and concepts

- > **Deployed Vercel**
- > **Front End GitHub**
- > **Back End GitHub**

CRYPTAROT Crypto-relevant readings guided by Tarot cards
Tech Stack: React/Router/Cypress, Express.js, PostgreSQL, own API
Learning Goals

- Implement features and functionality around user personas
- Develop a well-tested, robust product for a niche audience
- Learn to cohesively integrate data from multiple APIs

- > **Deployed Vercel**
- > **Front End GitHub**
- > **Back End GitHub**

BETTER JEOPARDY For anyone bad at conventional Jeopardy
Tech Stack: React/Router/Cypress, Express.js, PostgreSQL, own API
Learning Goals

- Create and deploy API via PostgreSQL & Express
- Learn about deploying a full stack application to Heroku

- > **Deployed Heroku**
- > **Front End GitHub**
- > **Back End GitHub**
