## SOFTWARE DEVELOPER

masonrf1@gmail.com  
(719) 649-3189  
linkedin.com/in/masonfrance  
github.com/francepack

### SKILLS

Javascript/jQuery  
HTML  
CSS/SCSS  
Bootstrap/tailwind css  
Vue.js  
angular.js  
TDD: Jest/Enzyme;  
Mocha/Chai  
CI: Circle CI, Travis CI  
Docker/VirtualBox/Vagrant  
PostgreSQL  
GraphQL  
Heroku  
REST API  
JSON  
Git/Github  
Agile workflow  
Responsive design  
SQL/mysql  
Wordpress Development/PHP  
Hubspot Development  
HTML Email Templating

### EDUCATION

**TURING** 2019  
School of Software and Design  
Front End Engineering

**GRINNELL COLLEGE** 2010  
BA Political Science  
BA Music

### EXTRACURRICULAR

**ST. JOHN'S CHOIR** 2020 to current — Contract singer

**KANTOREI** 2015 to current — Professional choir member

**CAMP LAFORET** 2010 to 2016 — Camp counselor

### EMPLOYMENT

**NEEDLE** Denver, Nov 2020 to March 2021 — Contract FE Developer

- Redesign the company website: Wordpress/PHP/custom theme development
- Follow wireframes to recreate pixel perfect designs
- Work on permissions features for angular.js client reporting dashboard
- Work on custom page visibility and implementing design changes
- Customize HTML email templates for clients as an independent project
- Dev Environment: Docker, Virtualbox, Vagrant, MongoDB

**TURING SCHOOL** Denver, Feb 2020 to present — Mod0 Instructor

- Teach classes covering github basics, fundamental coding concepts/syntax
- Develop curriculum
- Provide written feedback for assignments and individual mentorship
- Track student progress to make recommendations for Mod0 outcomes

**PARUZAL GAMES** Denver, May 2020 to present — Game Master

- Lead groups of people through online escape rooms via zoom calls

**RHINO STAGING** Denver, Mar 2014 to Nov 2018 — Scheduling/Accounts Manager

- Coordinated scheduling and administrative needs for 150+ employees
- Collaborated with venue and corporate clients to fulfill labor requests

### PROJECTS

**YOUR-HOME** Track all materials in every room of a home during construction

*React/Redux/Router, Jest/Enzyme, GraphQL, Circle CI, Ant Design, Heroku*

- Implemented, made requests to GraphQL backend using Thunk middleware
- Used ant.design to build clean forms, prioritizing seamless UX

**PALETTE-PICKER** Randomize color palettes to save and edit favorites

*React/Redux/Router, Node.js/Express, PostgreSQL, Heroku*

- Learned about database construction, migration, and data seeding
- Learned about deploying a full stack application to Heroku

**TRAPPER-KEEPER** Create, edit, and store custom to-do lists

*React/Redux/Router, Node.js/Express/git workflow-rebasing*

- Practiced building endpoints and having UI respond to API changes

**MUSICFINDER** Find concerts inspired by your favorite band

*React/Redux/Router, Jest/Enzyme, external API research and utilization*

- Focused on fetch API, and achieving high test coverage
