👤 PROFILE

Dedicated engineer and mentor with experience in Front End Web Development and the food service industry. Passionate about self development, lifelong learning, executing ideas, collaboration, UI/UX, TDD, responsiveness, accessibility, and mentorship.

📁 SKILLS

📄 LANGUAGES

TypeScript | JSX |
JavaScript | HTML | CSS |
SASS

📄 TEST DRIVEN DEVELOPMENT

Mocha & Chai | Cypress

📄 LIBRARIES & TOOLS

React | React Router |
NPM | Node.js | Webpack
| Fetch API | Version
Contro | Github

💻 PROJECTS

📅 07/2021

Roomies

<https://turing-roomies.herokuapp.com/> -----
<https://github.com/Turing-Roomies/roomies-fe> -----
Roomies is a Social Media application for roommates. Users can login, view other users, and send, receive, accept or decline connection requests. Users can view all relationships on connections page.

- Learned React Hooks, Context API, & Travis-CI
- Full Stack application with a team of 6.
- **Front-End Tech Stack:** *React | Hooks | Context-API | Router | Javascript | JSX | Fetch API | CSS | Cypress | Git | GitHub | Heroku | Travis-CI*

💻 PROJECTS

📅 06/2021

Book Worm

<https://bookworm-2102.herokuapp.com/>-----
<https://github.com/AndieDrew/book-worm> -----
Book Worm is an application that allows users to search for New York Times Best Sellers divided into categories. User can view books in a specific category, and save or remove them from their favorites.

- Learned TypeScript & Heroku.
- Fully responsive & accessible.
- **Tech Stack:** *React | Router | Javascript | JSX | Fetch API | CSS | Cypress | Git | GitHub | Heroku*

📅 05/2021

Rancid Taters

rancid-taters.surge.sh -----
github.com/AndieDrew/rancid-taters -----
Rancid Taters is a movie database application that allows the user to view information on individual movies.

- Learned React & Router, & fetched API data, while remaining responsive & accessible
- Implemented React Router to have a multi page UI with matching URL.
- **Tech Stack:** *React | Router | Javascript | JSX | Fetch API | CSS | Cypress | Git | GitHub*

✅ EXPERIENCE

📅 01/2021 – 08/2021 📍 DENVER

Front-End Web Development Turing School of Software & Design

Developed 10+ web applications with Front-End technologies, industry standards, best practice and teamwork. Collaborated in paired, group and solo projects (applications) throughout the course using in demand technologies such as React, Javascript, HTML, CSS, SASS, Git/GitHub, Mocha & Chai, Cypress, and Node.js

- The only ACCET coding program in the US.
- Leadership/mentoring

☑ EXPERIENCE

- Collaboration
- Fully remote

📅 03/2020 – 02/2021 📍 JUPITER, FLORIDA

Line Cook Brick & Barrel Pub

- High intensity, fast paced restaurant that focused on quality & creativity.
- Worked as a team with the kitchen staff to provide excellent food & service to customers. Teamwork, communication, multi-tasking & performing under immense pressure while still maintaining quality was key for success.

📅 10/2016 – 03/2020

📍 WEST PALM BEACH, FLORIDA

Warehouse Assistant Red Stripe Games

- A creative small business that built custom tables for children & small carnival game replicas.
- Responsible for all parts of the process from raw material to shipping where attention to detail was the top priority. Cut & sand wood, build the tables & games, stain or paint them, then carefully package & ship them. The products had to be heirloom quality, any error in the process would result in a costly return & potentially doubling the labor for one product.
