SUMMARY

A Software Developer with a background in Music Education, industrial sewing, and the Arts. I am looking for a collaborative and energetic team where I can make connections and build projects through creativity, attention to detail, strong work ethic, and authentic engagement.

PROFESSIONAL SKILLS

- HTML
- CSS/ SCSS
- JavaScript
- Node.js
- React/ React Hooks
- Redux
- Git
- Github
- RESTful APIs
- E2E Testing (Cypress)
- TDD (Mocha, Chai)
- UI/ UX
- OOP (Object Oriented Programming)
- Slack
- Figma
- Miro
- MySQL
- Express

EDUCATION

TURING SCHOOL OF SOFTWARE AND DESIGN
FRONT END ENGINEERING PROGRAM

UNIVERSITY OF NORTHERN COLORADO
BACHELOR OF MUSIC EDUCATION K-12
VOCAL, PIANO, GENERAL MUSIC

PROJECTS

BOOKWORM

https://github.com/conconartist/book-worm-fe
https://book-worm-2.herokuapp.com/

- Web app for young readers to track the progression of the books they are reading, utilizing React, React Router, React Hooks, API endpoints, async JS, D3, SCSS
- Wireframed user stories, implemented code in React Components, rendered GSAP animations, and collaborated on data visualization elements with SVGs drawn in Figma
- Coordinated with Front End and Back End team of 5 to build over the course of 2 weeks as a Capstone project

LYRIC LAVA

https://github.com/conconartist/lyric-lava
https://lyric-lava.vercel.app/

- Lyric app for songwriters, using a REST API with multiple endpoints to generate prompts, synonyms, and rhymes
- Implements React, React Router, React Hooks, Cypress, ES6 JavaScript, RESTful API endpoints
- Built over 6 days as a solo project

FACE IT

https://github.com/conconartist/face-it
https://face-it.vercel.app/

- A responsive web app that allows a user to choose beauty products that are categorized as eco-conscious, vegan, or allergy-friendly utilizing RESTful API requests
- Deployed as a PWA with React, JS, CSS, React Router, and Cypress for testing
- Created an SVG icon and logo for the product with Inkscape
- Built over 6 days as a group project of 3

EXPERIENCE

FRONT END ENGINEERING STUDENT
TURING SCHOOL OF SOFTWARE AND DESIGN

- Participated in Student Leadership Committee to foster growth and connection among cohort peers
- 1500+ hours of coursework in fundamental technologies, modern languages, and frameworks for web development
- Volunteered as a tutor for an incoming student for 1-to-1 pairing opportunities
- Collaborated on 10 group and pair projects, in addition to over 10 solo projects in Vanilla JavaScript and React, to display knowledge and learn aspects of software engineering

VOCAL COACH, PERFORMER, SONGWRITER
CONCONART LLC

- Built a private vocal studio comprised of over 60 pre-teens and adults in various styles of music, applying knowledge of vocal pedagogy to help students improve singing techniques in order to achieve their individual goals in singing
- Coordinated lesson plans, scheduling, and concert recitals with students and parents
- Established a licensing contract for national TV and commercial placements
- Selected as a featured artist for TEDXMileHigh, NPR's All Songs Considered, and conducted interviews with local and national press
