Summary

A quality focused software developer with a background in Object Oriented Programming and Test Driven Development. What I bring to a team is a collaborative spirit, an eagerness to learn, and a determination to find solutions that demonstrate high value to both our users and the development team.

Skills

JavaScript, HTML5, CSS, SCSS, React, React Router, TypeScript, Mocha, Chai, Cypress, Test Driven Development, Object Oriented Programming, Nodejs, ApolloClient, GraphQL, RESTful APIs, Continuous Integration/Deployment

Projects

Truck On - Colorado Offroad Trails

<https://truck.on.surge.sh/>

React | JavaScript | Cypress | SCSS | ApolloGraphQL

- Self teach ApolloGraphQL to store cache and query the back end
- Successfully implement a complex filter logic to narrow trails results by categories like difficulty or trail activities
- Implement TravisCI for continuous integration with each push and continuous deployment on merge to main

Breathe Easy - Air Quality

<https://breezy-breathe-easy.surge.sh/>

React | TypeScript | Cypress | CSS | RESTful API

- Self teach TypeScript to prevent data type coercion
- Develop reusable React components for a user to search for a location's air quality data
- Implement React Router for a multi-page user experience

Capita - Stocks Information

<https://capita.surge.sh/>

React | JavaScript | Cypress | SCSS | RESTful API

- Utilize a search endpoint from a RESTful API to show all relevant stocks based on a user's search query
- Developed a visual representation of a stock's weekly trend with the react-charts-js-2 line graph

Education

Turing School of Software and Design - Front End Engineering

May 2021 - Nov 2021

- +1700 hours, 7-month immersive program with a front end development focus. Curriculum is focused on equipping students with the necessary skills for a fulfilling technical career with opportunities for solo projects as well as pair and group collaboration.

Work Experience

Kuni Honda on Arapahoe, Centennial, CO - Sales Consultant

Sept 2020 - Mar 2021

- Build rapport, customer trust and satisfaction, reflected by achieving customer satisfaction index survey goals.
- Negotiated the price of a car - retained gross profit by justifying the value in each car's features and addendums.
- Increased sales by 400% over a 3 month period by attending sales training and employing unconventional sales tactics such as social media marketing.
