What To Do

July 2020

EXPERIENCE

Via TRM—Boulder, CO (Remote)

November 2020 - February 2021

Front-End Engineering Fellow

viatrm.com

Transform User Interface Design / UI and User Experience Design / UX across product suites with a focus on usability and accessibility on desktop and mobile applications.

Update and maintain company's visual design system using wire-framing tools to adhere to best practices and style standards on fonts, colors, and images.

Research, diagnose, and resolve bugs and anticipate future issues before they impact users.

Turing School of Software & Design—Denver, CO

September 2019 - August 2020

Front-End Engineering Immersive (Student)

turing.edu

Develop 20+ web applications, often within various team environments, using JavaScript and other front-end frameworks for rapid prototyping.

Conduct thorough testing of user interfaces in multiple platforms and operating systems to ensure all designs render correctly and systems function properly.

Follow an Agile Scrum Methodology to produce high-quality code and translate project requirements into wireframes and ultimately into intuitive, accessible, database-backed applications.

American Airlines—Dallas, TX

August 2015 - August 2019

Customer Loyalty Specialist

aa.com

Handle inbound/outbound calls effectively and efficiently to ensure customer satisfaction and loyalty by assisting and resolving a wide variety of customer complaints and concerns.

Utilize effective resolutions and solve problems with out-of-the-ordinary circumstances while also reinforcing company policies to ensure consistency with other departments.

Provide excellent customer service to exceed established goals and performance levels in customer retention and sales via email and telephone.
