

PAIGE VANNELLI

• Software Engineer •

(925) 286-1740 • paigevannelli@gmail.com • [Github](#) • [Linkedin](#)

SKILLS

JavaScript	Express	UX/UI design	Test-Driven	Github Projects
ReactJS	NodeJS	CSS/Sass	Development	Trello
TypeScript	OOP	HTML	Mocha/ Chai	Kanban
Webpack	Git	Google Workspace	Cypress	Agile Workflow

APPLICATIONS

Shine - Group

[Deployed](#) & [Github](#)

- **Summary:** Application targeted at female identifying users to support one another in the software engineering industry. Users can post comments or questions and interact with posts by liking, saving and adding more comments to posts.
- **Features:** Responsible for building the core react app, implementing Router and TypeScript and comprehensive happy and sad path testing with Cypress
- **Technologies:** Built in two weeks using ReactJS, Router, TypeScript and Cypress while independently learning TypeScript

FOMA - Solo

[Deployed](#) & [Github](#)

- **Summary:** Application for users to explore all the art in the Metropolitan Museum of Art. Users can search by different key words, artists, time periods and mediums to find art that interests them. Users can then save their favorite art pieces to view later.
- **Features:** Responsible for designing wireframes, building the core react app with router, and testing with Cypress
- **Technologies:** Built in a week using ReactJS, Router and Cypress

EXPERIENCE

Lyft Inc.

Executive Recruiting Researcher • April 2019 - Nov 2020

- Lead market research, search strategy, outreach and phone screens with executive candidates across all departments. Managed 7-10 open roles while sourcing 300+ candidates, targeting 2-3 onsite interviews, and getting multiple candidates to offer.
- Ran weekly strategy meetings with executives. Presented on search progress, market research data, active candidates, search strategy and talent intelligence reports; directly impacting targeted markets, diversity initiatives and positions responsibilities.

Tesla Inc.

Executive Recruiting Sourcer • April 2017 - April 2019

- Developed and tracked recruiting metrics in applicant tracking system; including time to fill, sourcing channel effectiveness, candidate response rate and pass-through rate. Conducted in-depth market and field research

Executive Recruiting Coordinator • May 2015 - April 2017

- Managed overall candidate experience of executive director and vice presidential candidates; including scheduling, travel, factory tours, test drives and feedback collection.

EDUCATION

Turing School of Software & Design

7 month intensive accredited front-end software engineering program

Santa Clara University

BS Environmental Science
Graduated Cum Laude
