

PROJECTS

The Nomadic Nibbler: Team Project

Tech: JavaScript, React, HTML5, Sass, Cypress testing, Ruby, Rails, Redis

Github frontend: <https://github.com/elizhahn/foodtruck-fe>

Github backend: https://github.com/elizhahn/foodtruck_be

An application for food truck enthusiasts who want to search their immediate area for food trucks near them. Enter your location and explore the different trucks near you!

Gearfull: Personal Project

Tech: JavaScript, React, HTML5, Sass, Cypress testing

Github: <https://github.com/elizhahn/Gearfull>

An application for light-weight backpackers to track their gear and weight of each individual piece. Using the power of React, an interactive UI was created to allow users to easily input and organize their gear and manage their total pack weight.

CarryOkay: Team Project

Tech: React, HTML5, Sass, JavaScript, Cypress, Express, Knex, PostgreSQL

Github frontend: <https://github.com/elizhahn/karaoke-stretch>

Github backend: <https://github.com/elizhahn/karaoke-stretch-api>

A hub for karaoke lovers to browse songs, lyrics and add to their own personal songbooks for quick reference. An engaging, bright UI was designed to give energy and ease of use to the karaok-er.
