

# PAIGE VANNELLI

• Software Engineer •

(925) 286-1740 • paigevannelli@gmail.com • [Github](#) • [Linkedin](#)

## SKILLS

**Languages/Libraries:** JavaScript, ReactJS, TypeScript, CSS/Sass, HTML, ES5/ES6, React Hooks,

**Testing:** Cypress, Mocha/Chai, Test Driven Development, Unit Testing, End to End Testing

**Tools:** Git, TravisCI, Heroku, Webpack, Github Projects, Trello

**Other:** Kanban, Agile Workflow, UX/UI Design, OOP, RESTful APIs

---

## APPLICATIONS

### Hitch - Group

[Deployed](#) & [Github](#)

**Summary:** Carpool matching application aimed at getting cars off the road and cutting down on gas usage. By inputting their origin, destination, days, and time, users can match with potential carpool partners with a similar commute.

**Technologies:** ReactJS, TypeScript, React Hooks, Router, Cypress, PWA, Github Projects, Kanban, Heroku

### Shine - Group

[Deployed](#) & [Github](#)

**Summary:** Female identifying users can support one another in the software engineering industry. Users can post comments or questions and interact with posts by liking, saving and adding more comments to posts.

**Technologies:** ReactJS, Router, TypeScript, Cypress, Github Projects, Kanban, Heroku

### FOMA - Solo

[Deployed](#) & [Github](#)

**Summary:** Explore all the art in the Metropolitan Museum of Art. Users can search by different keywords and artists to find art that interests them. Users can then save their favorite art pieces to view later.

**Technologies:** ReactJS, Router, Cypress, Github Projects, Heroku

---

## EXPERIENCE

### Lyft Inc.

#### Executive Recruiting Researcher • April 2019 - Nov 2020

Lead market research, search strategy, outreach and phone screens with executive candidates across all departments. Managed 7-10 open roles while sourcing 300+ candidates, targeting 2-3 onsite interviews, and getting multiple candidates to offer.

Ran weekly strategy meetings with executives. Presented on search progress, market research data, strategy and talent intelligence reports; impacting targeted markets, diversity initiatives and search strategy.

### Tesla Inc.

#### Executive Recruiting Sourcer • April 2017 - April 2019

Developed and tracked recruiting metrics in applicant tracking system; including time to fill, sourcing channel effectiveness, candidate response rate, and pass-through rate. Conducted in-depth market and field research.

#### Executive Recruiting Coordinator • May 2015 - April 2017

Managed overall candidate experience of executive director and vice presidential candidates; including scheduling, travel, factory tours, test drives and feedback collection.

---

## EDUCATION

### Turing School of Software & Design

7 month intensive accredited front-end software engineering program

### Santa Clara University

BS Environmental Science  
Graduated Cum Laude
