EXPERIENCE

Front End Developer | Turing School of Software & Design, Denver, CO/Remote 4/2021 - Present

- Created responsive web applications in solo and team environments that accomplished learning deliverables.
- Implemented and utilized ES5 & ES6 JavaScript, React, Router, TypeScript, and Express.js.
- Collaborated on numerous group projects to reach benchmarks and stretch goals in given time constraints.

Web Content Manager | The Denver Folklore Center, Denver, Colorado 7/2012 – 4/2021

- Led transition of inventory to RAIN point of sales software.
- Designed the customer facing web store that resulted in near 80% increase in out of state sales.
- Managed product assets including creating product photography and videography, writing copy, and coordinating product showcase events.

Instrument Sales Specialist | Ludlow Guitars, New York, New York 5/2011 – 6/2012

- Cultivated and maintained numerous clients and five vendor partnerships.
- Thrived in a fast-paced team environment to consistently hit 100% of weekly sales goals.
- Tailored industry knowledge and trends to meet the technical needs of clients.

TECHNICAL PROJECTS

Savor (solo) <https://recipe-savor.herokuapp.com> 8/2021

A recipe app that allows users to dynamically search for recipes and save them as favorites.

- This fetches recipes from the Edamam API and displays them in an elegant card format.
- Built using React/Router/JavaScript/CSS/Cypress

Rancid Tomatillos (group) <https://rancid-tomatillos-mtcawthray.herokuapp.com> 8/2021

An app that allows users to browse movies, view each movie's details, and save selections to favorites.

- This app was designed to use an Express.js microservice to store movie data.
- Built using React/Router/Express/JavaScript/Cypress

EDUCATION

Certificate of Front End Web Development Program | Turing , Denver, CO/Remote 2021

- Served as Student Leadership Committee Liaison to foster inclusivity and networking.
- Completed over a dozen group and solo projects in a full time high intensity environment.

Bachelors of Science in Music | University of Colorado at Denver , Denver, CO 2010

- Studied Audio Engineering and Music Industry Studies.
