## Software Engineer

---

### SKILLS

- *Development*
  - React, JavaScript, HTML, CSS, SASS/SCSS, Node.js, Router, Hooks, GraphQL
- *TDD*
  - Debugging, Unit & Integration Testing, Cypress, Chai, Mocha
- *Workflow*
  - Git, GitHub, NPM, Webpack, Google, Asynchronous, Accessibility, UI/UX, CD/CI

### PROJECTS

#### **Brew n' Jokes**

<https://brew-n-jokes.herokuapp.com/>  
<https://github.com/errabun/brewerv-jokes>

- This project was a solo project that I was given 1 week to complete an application for a niche audience. Built using React, Router, and tested with Cypress. If you are in need of finding the closest brewery to you and want to be armed with a good dad joke, this app is for you!

#### **Rancid Tomatillos**

<http://errm-rancid-tomatillos.surge.sh/>  
<https://github.com/errabun/Rancid-Tomatillos>

- Two week paired programming assignment to build a mock movie review application from the ground up using React and tested with Cypress.

#### **Refactor Tractor**

<https://github.com/kendallha/refactor-tractor>

- Group project meant to introduce working with legacy code and develop processes for working remotely in groups. Refactor Tractor uses Whats-Cooking as its legacy code base and required refactoring using SCSS, JavaScript, and was tested using Mocha and Chai.

### PROFESSIONAL EXPERIENCE

**02/21 - Present**

Turing School of Software & Design  
**Front-End Engineer**

Denver, CO

- ACCET accredited program.
- Developed 15+ web applications over the course of a 7 month, 1500+ hour, full-time plus program.
- Followed an agile workflow, often working within a team environment, in order to create programs both following a design document and of our own design.

**06/14 - 09/20**

Mockery Brewing Co.  
**Taproom Manager & Sales**

Denver, CO

- Responsible for all in-house brewery operations. Investigated and resolved all customer and employee complaints concerning quality and service practices.
- Named 5280 Magazine's Readers Choice award for all breweries in Colorado in 2018.
- Managed all day to day operations including scheduling of employees, events and food trucks.
- In charge of all monetary handling of taproom transactions including maintaining a proper cash bank, securing daily cash deposits and depositing all cash to corporate bank accounts.
- Maintained several off premise sales accounts including sales, delivery and monetary collection processes.

### EDUCATION

**Turing School of Software & Design**

- Accredited front-end engineering certificate; Aug 2021

**Remote**

**Colorado State University,**

- B.S. Degree, Economics, Colorado State University; May 2009

**Ft. Collins, Colorado**
