PROJECTS

OhCrop! [🔗](#) Turing | 2020
OhCrop! Is a plant tracking mobile application built with React Native on the front-end for a Python/Flask back-end. Gardeners can discover new plant species while tracking the progress of current plants in their literal and digital gardens.

Nature Office [🔗](#) Turing | 2020
Designed for outdoor enthusiasts seeking an accessible spot outdoors to conduct business and study. Our focus was learning how to incorporate global state management using MobX, a technology not explicitly taught.

VRAD - Vacation Rentals Around Denver [🔗](#) Turing | 2020
VRAD is an online platform where users can browse local lodging, primarily homestays for vacation rentals, and tourism activities, similar to Airbnb. I focused on writing clean code using ES6 syntax to build out complex React components.

WORK EXPERIENCE

FRONT-END ENGINEER ViaTRM | Boulder, CO | 2020 - 2021

- Transform UI and UX across product suites, using React and CSS to create an experience that drives interaction.
- Research, diagnose, and resolve bugs while anticipating future issues before they impact users.
- Maintain a visual design system that adheres to predetermined brand standards that create brand consistency and trust.

FRONT-END ENGINEER Turing | Denver, CO | 2019 - 2020

- Develop 20+ applications using JavaScript and other front-end frameworks to create fully functional, responsive web designs.
- Conduct thorough testing of user interfaces across multiple platforms to ensure designs render and function correctly.
- Worked in an Agile setting to produce high-quality code to translate project requirements into accessible, database-backed applications.

CUSTOMER LOYALTY SPECIALIST American Airlines | Dallas, TX | 2015 - 2019

- Provide full customer satisfaction through empathy and creative problem solving to retain customers.
- Escalate unresolved complaints and concerns in a timely and effective manner, in accordance with escalation guidelines.
- Notify customers of account inactivity by phone, and offer solutions to preserve miles on the account.

EDUCATION

Front-End Engineering Certificate [🔗](#) Turing School of Software & Design | Denver, CO | 2020

Completed 30 Credit Hours Towards a Bachelor's in Psychology University of Arkansas | Fayetteville, AR | 2015

Completed 24 Credit Hours Western Piedmont Community College | Morganton, NC | 2012
