## PROFILE

If my "About Me" section was limited to one word, without question, it would be Learner. I'm not only a learner that is familiar with industry standards, but I understand what it means to be apart of a team and contribute to a group dynamic. There isn't a single problem or challenge that is best solved with one mind. The future of tech starts with collaboration and forward thinking. Are you ready?

## PROJECTS

### SWEATHER WEATHER - INDIVIDUAL

Rails API Backend built to create and manage road trips for a simulated front end

- Exposed ReSTful API Endpoints for Business Intelligence
- Created Custom Exceptions to Handle Edge Cases
- Implemented Multiple Third-Party API's
