EDUCATION

UNIVERSITY OF DENVER

Bachelor of Arts, English & Audio

PROJECTS

ROASTED TOMAHTOES

a fresh take on Rotten Tomatoes > [site](#) | [repo](#)

- Implemented features like search, favorites, ratings, and login
- Used an API for storing all data and manipulating said data
- Asynchronous testing suites
- (Login as charlie@turing.io, pw: qwerty)

HIRE UP

a search engine for job applicants > [site](#) | [FE repo](#) | [BE repo](#)

- Worked with front and back end teams in all stages of design
- Selected for Turing's December 2020 demo competition

ABSTRACTIFY

a mood board for abstract painters > [site](#) | [repo](#)

- Exercised SASS styling and used JS to control visual elements
- Made design decisions based on a target audience

EXPERIENCE

FRONT END DEVELOPMENT

Turing School of Software & Design | 2020

- Coded with teams remotely for 7 months
- Successfully implemented new technologies in team projects in as little as two weeks
- Led team retrospectives and used an Agile workflow to plan and measure progress
- Focused on creating strong documentation and coding with developer empathy
- Implemented new features in legacy code-bases
- Demonstrated a strong grasp of object oriented programming

AUDIO ENGINEER

Staff and Freelance | 2016 - 2020

- Operated many audio systems with hundreds of artists, venues, and production teams often as the only technical hand
- Consistently successful troubleshooting under deadlines within the hour
- Developed a strong sense for component based systems, routing and signal flow
- Constantly worked to self-teach new systems, technologies, and principles of the trade
- Demonstrated the ability to create strong rapport with almost any team-member or client
