

SKILLS

JavaScript, TypeScript, React, React Router, REST API Integration, Apollo Client (GraphQL), HTML, CSS/Sass/styled-components, unit testing, CI/CD, TDD, Mocha, Chai, Cypress, Git, Github, Zoom, Slack, Miro, Excalidraw, Photoshop, ProCreate

PROJECTS

CHOOSE YOUR OWN ADVENTURE | solo project | Repo | Deployed site

Tech Stack: React, Router, ES6, RESTful API integration, Cypress

- Are you ready to move to a different city but want a little help from the Magic 8 Ball in deciding? Liked cities are saved to favorites, if it's a "Nope", you won't see it again. (Think: Tinder for cities!)

HIVEMIND | full stack group project | Repo | Deployed site

Tech Stack: TypeScript, React, Router, Apollo Client (GraphQL), Cypress, CI/CD

- A reddit-type social media application where beekeepers go to get advice, post photos, and meet our community of "bee-lievers."

FRESHLY FETCHED | group project | Repo | Deployed site

Tech Stack: TypeScript, React, Router, RESTful API integration, Cypress

- A farmer's market locator where users can search by zip code and distance. Results can be filtered by day and more details are available for each market.

EXPERIENCE

Production Manager, Sweet Action Ice Cream

Denver, CO, Jul 2020-Feb 2021

- Used GSuite to implement standard operating procedures that streamlined inventory tracking, product ordering, and wholesale order fulfillment
- Researched federal food safety standards and drafted 60+ page HACCP plan to begin process of becoming an FDA certified factory

Pastry Chef and Production Manager, Little Man Ice Cream

Denver, CO, Apr 2018-Nov 2019

- Created a recipe database, leading to accurate recipe costs for hundreds of recipes, and up-to-date allergen information readily available
- Analyzed sales and product mix to create an annual flavor plan that optimized production, minimized inventory on hand and improved customer experience
- Cultivated sense of teamwork by implementing new SOPs, quarterly one-on-ones, monthly staff meetings and goal-setting, weekly newsletters, and "family meals"

EDUCATION

Turing School of Software & Design | Mar-Oct 2021 | Certification: Front End Engineering

7 month, 1500+ hour, accredited coding bootcamp

Led retros as a Student Leadership Committee member

Mount Holyoke College | South Hadley, MA | Bachelor of Arts

Major: Sustainable Architecture
