LinkedIn: <https://www.linkedin.com/in/boone-epstein/>

I'm a creative software developer looking to contribute to elegant code and intuitive design. As a Type 1 Diabetic who's pancreas uses a computer, I know just how deeply software can impact peoples' lives. I'm also a Musician and writer of weird fiction drawn to code as an expressive medium. Ask me why Victor Hugo's Hunchback of Notre Dame is about web applications.

SKILLS

LANGUAGES, FRAMEWORKS, & LIBRARIES

JavaScript, HTML5, CSS/Sass, React, Mocha, Chai, Node.js, Cypress, Express
