### SUMMARY

A highly motivated Software Developer and Product experienced Designer with a track record of fostering team fun and team-oriented environment. Looking to step into a company that is energetic and committed to the growth of its employees.

### PROJECTS

#### SATURN'D EARTH| JAVASCRIPT | TURING | GROUP

- Worked as the Product Manager and Front-End Developer setting up and maintaining the project boards, wireframes, conducting team stand-ups, assessing project requirements, and held facilitate project communications as well as lead Front-End Developer utilizing an advanced google map feature.
- Developed a social media application in a Kanban fashion that uses SCSS, HTML, JavaScript, Google Maps, and API calls.
- <https://github.com/Saturnd-Earth>

#### PORTFOLIO WEBSITE | TURING | SOLO

- A portfolio website built to reflect the work that I have done. I built the mock-up in Figma and conducted user surveys for future improvement. The application was built using Vue.js as an opportunity to explore a new framework and styled in SCSS.

### WORK EXPERIENCE

#### TURING SCHOOL OF SOFTWARE DESIGN | FRONT-END ENGINEER | 2020-CURRENT

- I Developed over 16 applications in both solo and group project settings that progressed in difficulty. Applications made utilized technologies and skills such as Wireframing and Prototyping Tools, Javascript, React, Vue JS, CSS, SCSS, HTML, XML, JSON, and Jest.

#### T-MOBILE| TELESALLES SPECIALIST & PRODUCT LAUNCH| 2018-2019

- Engaged in a national product launch conducting 25 customer interviews a day, gathering vital feedback that created a successful product launch in five other major cities. Additionally, I was a part of a team that spoke with 50 customers daily to improve the customer experience by offering solutions for their entertainment and cellular needs.

#### GRAPHICS DESIGNER | MULTIPLE POSITIONS | 3 YEARS

- I focused on a logo and print design for over 300 different companies. I worked with the clients to build promotional martial based on the company vision. I implemented the designs utilizing the Adobe suite. Also, help produce material for large-scale productions.
