PROJECTS

The Nomadic Nibbler

Repo: <https://github.com/NomadicNibbler/foodtruck-fe>
Deploy: <https://the-nomadic-nibbler.herokuapp.com/>

Technologies Used: React, SCSS, React Router, Cypress, PWA/Service Worker

If you're jazzed about food trucks, then this is the app for you! The Nomadic Nibbler allows a user to create a username with a location, and then view food trucks around their area. The integration of the Google Maps API allows users to see a map view with custom truck pins, as well as a list view of trucks sorted by distance, and a detailed page for individual food trucks.

Rotten Turtle Tales

Repo: <https://github.com/Shakikka/rotten-turtle-tales>
Deploy: <https://rottenturtletales.herokuapp.com/>

Technologies Used: React, CSS, React Router, Cypress, Beautiful DND, React Prop Types, Cypress

Rotten Turtle Tales is a movie information and rating site, similar to Rotten Tomatoes, that uses a movie API to fetch and display movie information and trailer details. A user can click on individual movie posters to get detailed information about the movie, and view the movie trailer. This app also makes use of Beautiful DND, which allows users to drag and drop their favorite movie posters into the favorite movies section.

My Name is Dad

Repo: <https://github.com/Shakikka/My-Name-Is-Dad>
Deploy: <https://my-name-is-dad.herokuapp.com/>

Technologies Used: React, React Router, CSS, Redux, Redux Thunk, Cypress

My Name is Dad is an app for up-and-coming dads that are looking to up their dad joke game. The landing page shows the user inspiration in the form of a dad with a wiggly mustache, and a random dad joke. A user can push the random dad joke button to get as many random jokes as they desire, or they can switch to the search page to search dad jokes by category.
